Module 3 Quiz

LATEST SUBMISSION GRADE

96.66%

1. In Scrum, the final deliverable is developed in small increments, which the team continually builds upon as they plan each sprint. The increment at the end of the sprint becomes a new version, which the team iterates throughout the project.

    1 / 1 point

    ○ False

    ◉ True

    ✓ **Correct**
    Correct!

2. What are the three standard categories of Scrum elements?

    1 / 1 point

    ☑ Artifacts

    ✓ **Correct**
    Correct!

    ☐ Repertoires

    ☑ Events

    ✓ **Correct**
    Correct!

☑ Roles

✓ **Correct**
Correct!

☐ Descriptions

3. How would you describe the role of the product owner according to the lecture?   **1 / 1 point**

⦿ A product owner knows what the client wants and is able to help the team prioritize the features to support successful sprint planning.

◯ A product owner consults with the team to determine the priority of the features.

◯ A product owner knows what the client wants and documents that vision in a manual.

✓ **Correct**
Correct! The product owner understands the final vision and is able to prioritize product features in such a way that supports not only the vision but also allows for successful sprint planning.

4. How long does a typical sprint last?   **1 / 1 point**

◯ 3 weeks

◯ 1 week

⦿ 2 weeks

◯ 5 weeks

✓ **Correct**
Correct! Most sprints last two weeks. This time frame is short enough to stay laser-focused on the objective and deliverables and long enough to produce a meaningful working increment.

5. What are the functions of the Scrum Master? Select all that apply. **1 / 1 point**

☑ Scrum Master removes impediments the team encounters

✓ **Correct**
Correct! This is one of the roles the Scrum Master plays.

☐ Scrum Master tells the team how to do their job

☐ Scrum Master manages the team

☑ Scrum Master is a servant leader

✓ **Correct**
Correct! This is one of the roles the Scrum Master plays.

☑ Scrum Master ensures Scrum framework is being followed

✓ **Correct**
Correct! This is one of the roles the Scrum Master plays.

6. How is the development team defined in the lecture? **1 / 1 point**

◉ Development Team is a cross-functional and self-organizing team responsible for delivering a product increment.

○ Development team is a single-function team.

○ Development team is a cross-functional self-paced team.

✓ **Correct**
Correct!

7. What is the time box of a daily scrum session? **1 / 1 point**

○ 15 minutes

○ 5 minutes

○ 25 minutes

✓ **Correct**

Correct!

8. What's the formula for calculating the duration of a sprint planning session?   **0.6666666666666666 / 1 point**

☑ 2 hours x number of weeks

✓ **Correct**

Correct

☑ 2 hours x number of days

✗ **This should not be selected**

Incorrect. Review Lesson 1, video 3 Scrum Terminology.

☐ 3 hours x number of months

9. What's the purpose of a Retrospective?   **1 / 1 point**

⦿ Its purpose is to review lessons learned and commit to actionable items in the next
sprint.

○ Its purpose is to review the increment and make sure it works.

○ Its purpose is to review the manuals and commit to creating robust documentation of
the teams' processes.

✓ **Correct**

Correct

10. What are the three Scrum artifacts?

1 / 1 point

☑ Sprint backlog

    ✓ **Correct**

    Correct! Sprint backlog is one of the three Scrum artifacts.

☑ Product backlog

    ✓ **Correct**

    Correct! Product backlog is one of the three Scrum artifacts.

☐ Increment backlog

☑ Product Increment

    ✓ **Correct**

    Correct! Product increment is one of the three Scrum artifacts.
